

Pox on the Judicial System

I would like to preface this edict with a scripture that should be an awakening for all of us. The Book of Romans states a fact that if you are aware at all of our dire need for God, you will have to say, amen.

It states that because we have all not retained God in our mind, He has turned us over to a reprobate mind. Now the God I am talking about is the God of Piecemakers, the God who created you and me. He is not a God of the world or the so called church or anyone who attends.

Now that reprobate mind has the following attributes:

It envies, it covets, it is malicious. It is a fornicator (I should say sex crazy, drug crazy), deceitful, backbiter, proud, self righteous, murderer (that is thrown right in with the rest of our evil), no understanding of the things of God. Using our bodies for pleasure rather than the temple of the Holy Ghost and then it says that anyone with these attributes is worthy of death. That is pretty radical seeing as how we all have all these attributes nestled in our little pea brain. We judge those we say are guilty and then do the same thing.

With that in mind, this is the warning to all who are busy incarcerating those who they call criminals and then do the same thing and get away with it.

Woe unto those who are responsible for our prison system of today. For as you have done to those in prison so it shall be done unto you.

ALTHOUGH I AM INCLUDING ALL OF US AS GUILTY, GOD IS LOOKING IN PARTICULAR AT every judge, lawyer, THE POLICE FORCE, members of the juries that have made for a prison system that is worse than the prison camps of Hitler's day; that have used the taxpayers' money to support criminal acts perpetrated by judges, juries, deputies, wardens,

POLICE, the whole injustice system of America - putting in prison persons who have done no more evil than the judges, lawyers, dI would like to preface this edict with a scripture that should be an awakening for all of us. With that in mind, this is the warning to all who are busy incarcerating those who they call criminals and then do the same thing and get away with it. eputies, wardens and all responsible for caging God's children and treating them worse than any animal. And as the Bible says, getting pleasure and taking pride out of doing acts as evil as murder and calling it justice.

Now you will notice that envying and murder go hand in hand. So that puts all of us in the same category. Now, tell me. Seeing as how envy and murder and pride all go hand in hand and are attributes of what is known

as a criminal, why are there some who envy in prison for life and the rest of us who envy here on the outside of the prison walls, as if we are not guilty of the same crime that has put some in prison???

Now, I am warning America as a nation and those in particular who deem it right to enslave God's people behind bars when the fact is, the hearts of all men are filled to running over with wickedness beyond our comprehension. The cruelty of man is like a monster out of hell. However it is child's play compared to the judgments of the living God. He will get inside of you and drive you insane as you try to hide from that from which there is no escape.

So if I were ANY of you who think you are doing the world a service by putting in prison those who are doing no worse than you are doing, I would first of all repent and then open wide the prison doors, open your house and take care of the ones whom you have maligned by taking their humanity and nurse them back to health and then make sure you give them back some of the money you were paid for incarcerating them.

Time has run out, God has left His holy habitation and is about to bring severe judgment on all who do evil, calling it good.

But glory, honor and peace to all who worketh with tender loving mercy and malice toward none.
