

The Birthing of a New Generation

America is headed into a place of having to submit to unreasonable corruption by our so called Christian government, to the extent that there will be a wailing and lamenting and a cry from the depth of our being, “Let me go. Farewell, vain world, I want out of this hell.”

The gates of hell will prevail and hold us prisoners until we are so writhing with anguish and pain that the gates give way — not because we have someone open them for us, but because our writhing causes the waters to break and the birthing to happen.

The Red Sea parting is like the water bursting as a child is born. And Israel leaving her place of bondage is a good example of the timing of God as we Americans enter a new decade of pain, suffering, miracles and birth.

Moses had to be prepared as a leader, like a midwife to lead the children of Israel into their birthing time. As he led, they forged forward, the waters parted and a new generation was born, a man child, so to speak.

Now, to leave our old womb or tomb is a time when each person will be forced to leave what he knows of his old life and come forth with nothing. The children of Israel left homes and all belongings, family ties. As they forged ahead, they changed or perished as the country they knew was no more.

Those who resisted and looked back, like Lot’s wife, turned to salt and perished. Those who resisted letting go of their image, their hopes and dreams, like Aaron and Miriam, became lepers and were cast out of the camp.

Because money is the life blood of the system that will be devoured in the Red Sea, the power that keeps the system alive will do all in its power to get your money, your place of business, your life. It is your blood that keeps it alive as it has no blood of its own.

This is the hour for us to turn to God with a full heart as He is the life blood of the new generation. He has a place prepared for each of us. However, it is up to us to find it.

Marie Kolasinski
