The Big Awakening

2008 — The Year of the Opening of Prison Doors

TIME FOR CHANGE

I fear that the cemetery that calls itself the church is unprepared for the soon coming Christ.

There is no escape from the cross and its complete annihilation of our old Adam nature. It is the death and transformation of our fallen nature. It is the life of Christianity. And yet most of the so called Christian church has replaced it with doctrines as phony as the rapture doctrine.

The age that is passing away will soon run out of food and there will be a moaning worse than that at the close of the last age when Titus surrounded the Jews who were also fed false doctrines, false hopes. And when the food ran out they starved to death spiritually and physically ate their children.

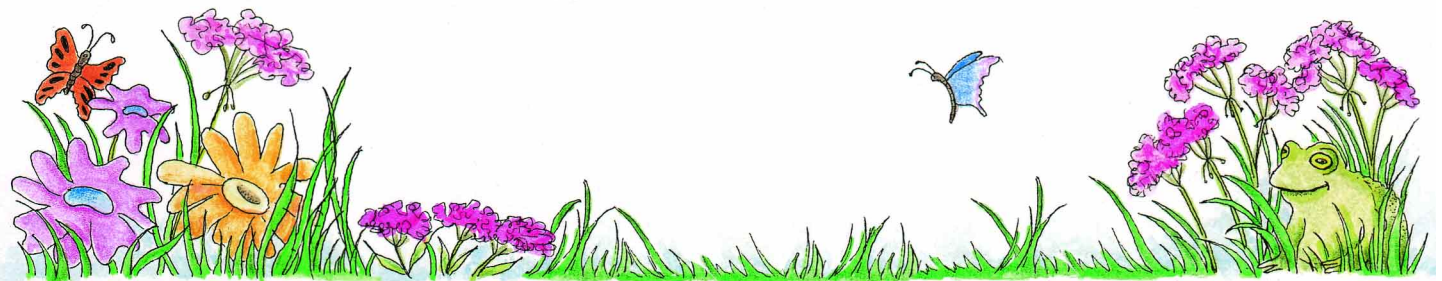

Now you all know that if you receive the Holy Spirit it always bears witness of Christ. The church has only received the baptism of John and he came baptizing in water — water because the womb called the gentile, or church age contains the human race and it is filled with water. The environment for our inner man is water. The kingdom of God is within us and God is a consuming fire. Woe is me, now what?????

Now let me tell you a miracle. The little tadpole in water swimming around knows only that environment. One day he miraculously feels awakened to the fact that there is another world right here and he starts yearning for it not knowing that the fullness of time has come for him. So there is a preparation day when he goes into his cocoon stage, his Jonah in the whale stage. When he comes out he is totally changed and in a new heaven and a new earth. He is caught up into the cloud, so to speak, which is Christ, a new creation.

Now back to our dilemma. We, the human race are in the fullness of time. And God has sent forth His son to baptize us in fire. The refining fire causes us to change so we can live in a new environment much like little Taddy. Our Father is a consuming fire. He is preparing us so we are caught up into His presence right here on good old Earth. The kingdom of God is within us just like the new world for Taddy is within him. So all you wannabe rapture fans will die in the womb like the taddies who loved to void the cross and stay a tadpole. We either change or perish.

Marie

Marie Kolasinski

July — September 2008 Letter

My dear friends,

We are rapidly heading for a big collision with God as He comes out of His holy habitation and takes America by storm. By storm, I mean, He is about to destroy the America we know now that says one thing and does another; that professes to be under God and ignores the God who created us, the America that promises to take the storm tossed and helpless and then casts them off as refuse, the America that says we are a nation with freedom and justice for all and then we find corruption in our court rooms that makes a dictator country look quite sane, the America that professes doing countries a service while destroying the infrastructure of country after country, the America that tries to force a government onto other countries that hasn't worked for us.

We, in our arrogance, pride ourselves in a man made government called democracy as the government others should have when the fact is democracy was at work in Hitler's day in Germany. We are too arrogant to tell the world it is not democracy but the rays of God's grace still shining as we were at one time founded on His principles and His ways and on God Himself.

And my dear folks we are about to see the end of America as we know it and a new beginning; for in the beginning was God. And He will have His country back and woe unto those who do not yield their lives to the big change as He forces His will on all of us. Thy kingdom come, thy will be done in America as it is in heaven.

Marie
