

Government

TO WHOM IT MAY CONCERN AT CITY HALL:

Please bear with me as I try my best to explain why I am such a pain in the ass!

A license given to anyone courageous and ambitious enough to start a business is only to register that business as a living entity in a community. To have to get licensed every year is ludicrous and just one more “pay the leviathan so he stays alive” ploy on the already hurting business man.

Do you realize the businesses of America are groaning and dying, and unless the blood suckers are removed you will be without a job as well as those who work to support you?

Your threats and penalties if not paid sounds like Nazism. Please take the \$100.00 we are sending and buy yourself a lunch. Also remove us from your mailing list.

Sincerely,

Marie Kolasinski
