*The Orange County Register
Santa Ana, California*

In 2007 I was sentenced to 10 days in Orange County Jail. My so-called crime had no victim. I was incarcerated for trying to run my business so as to benefit the community and not our arrogant, power hungry government.

Now, mind you, I had pneumonia at the time and my pills never followed me. By the grace of God, I got well. This is the normal treatment, we, who pay Carona's salary, get. And yet I see the headline in the local section of your paper that states Carona, who is perhaps as crooked as a government employee can get, is out for no apparent justifiable reason.

Carona was warden at the time of my incarceration. I went to jail because of not conforming to the unreasonable demands of the health department's codes.

Now I am sure Carona's jail was permitted by the health department.

There showers were beyond repair. The kitchen sink was corroded and plugged. There was filth in every corner. And from what I hear, the kitchen has its share of four legged creatures which would close down a private business. We are the ones working to pay the salaries of our

dictators who have no conscience, no sense of righteousness and have never done a constructive day's work in their life.

God is about to appear on the scene of this corrupt nation where evil is called good and good is called evil. Any person in the working forces of America pulling the moral and legal crimes Carona committed, would perhaps be in for life.

Not only is justice blind, she is stupid and should not be given a name that does not befit her corrupt nature.
